

Councillor Information

Name : Rob Golesworthy

I was educated at Brecon Technical Grammar school to A level, expelled at 16 and joined family outfitters. Whilst this was my main employment I've also been a partner in the family licensed restaurant at the Granary and a founding partner of a construction firm and undertaken property development. I also am a private landlord.

Interests both within/outside Council:

I am a member of a number of working groups and sub committees.

As to my interests, I find the natural world enthralling including the vagaries of humanity I am also fascinated by the industrial archaeology of Wales with particular emphasis on the old metal mines

Reason for joining the Council: Simply put I love my town and its people and felt I had something to offer back
