

Councillor Name: Ken Elleson

I moved to Hay in 2018 with my work towards the end of a career in Information Technology and I retired fully in 2022. Given more free time, I am now able to focus on new areas and activities that I find interesting or where I think that I can put my skills to good use.

Having lived in a number of interesting places during my career such as York, Durham and Windsor I can honestly say that Hay compares with the best and it's lovely to see the pride that townspeople here have.

I started to get involved in helping to manage the housing development where I live and later volunteered with the Hay Community Woodland Group, the Hay Repair Café and more recently, the Friends of Hay Swimming Pool. These groups with their hardworking teams have given me an introduction to many Hay residents and an insight into how the town ticks.

I hope that I can provide a valuable contribution on the Town Council as it tries to work positively to serve the local community and balance the never ending challenges of too much to do and too few resources to do it.
